THE FRANCISCAN HERMITAGE *messenger*

A U T U M N - W I N T E R 2 0 1 0

Dear Friends of the Hermitage:

Dear Friends of the Hermitage:
The Scriptures have told us to look for the Second Coming, Nirvana, Heaven, Enlightenment, etc. More recently we have been told that we are approaching the 11th hour. What I would like to suggest is that **NOW** is the time!

Jesus, Buddha, Krishna, Mohammad, etc. spoke about the “kingdom” within, the “quiet” within, the primacy of “love” which is within, the place within where there is “no thing”... As I see it, the Truth is within me and what I know to be true I have to live! If Love is the goal then it’s up to you and me to make Love visible. **NOW** is the time! I don’t think we need to wait for anyone to come. God, Love, Universal Intelligence, Cosmic Energy (whatever you want to call the Divine) is already connected to each of us.

We can make Love happen **NOW**?

What I see happening is a world-wide movement to 1) be aware our connection with the Divine and 2) to make that connection visible in Love..

On Christmas Day, I went to the movies with my Brother Joe and his wife Helen to see *Blind Side*. The movie is a **true story** of an African American youngster, Michael Oher who is kind, gentle, responsible, stable, loving and compassionate. Because of these beautiful traits, he is not accepted by his family, his peers, or his community. He is a model human being, but entirely alone.

One day Leigh Anne Tuohy, a wealthy woman from the suburbs notices him. She too is a kind, gentle, responsible, stable, loving, compassionate mother and wife. She, and her family, take Michael into their home and into their family. They help him to see his value as a valuable human being and to develop his physical and mental skills, which carry him into a professional football career.

When we left the theater, I commented to Joe and Helen: “What a wonderful model for young people today!”

The theater was full of youngsters looking at a real human being who is the image of a truly loving person, a spiritual hero! At the same time, adults were seeing a married couple and family who were also modeling solid spiritual ideals.

My logic went something like this: if this kind of entertainment is being produced for, and accepted by, the general public, it is a sure sign that we are moving in a positive and spiritual direction!

I had much the same reaction when I went to see the movie *Avatar*. You may not know the name Teilhard de Chardin, but he was a Jesuit priest, theologian, philosopher, and paleontologist who lived in the 20th Century. He realized that in the process of evolution, when atoms become more and more complex, they make a leap into a new form called cells. When cells become extremely complex they, too, make a leap to create a new species called plant life. Greater complexity created another leap to form animal life and

Statement of Purpose

The Franciscan Hermitage is an international, inter-faith, life center dedicated to the spiritual, physical, intellectual and professional growth and formation of persons of all persuasions and circumstances.

We offer a variety of workshops, lectures, classes and support groups, each designed to empower individuals on their journeys of faith and wholeness.

Persons involved with The Franciscan Hermitage are encouraged toward personal growth and development, so that by word and example, they might encourage others on their own journeys of personal growth and development.

eventually animal life produced *homo sapiens* (a human **knowing**) appeared (that's us!). Teilhard predicted in 1935 that it is now time when human beings will begin to make a **conscious** decision to create another new species called "homo noeticus" (a human thinking).

In my estimation, the movie Avatar is an artist's idea of how this transformation to a higher type of human being will be accomplished. For me, this movie is planting a seed in the minds of children all over the world – a thought that truly valuable human beings are those who choose to be kind, gentle, responsible, stable, loving and compassionate.

This kind of process happened when I was a child. Another artist by the name of Nolan, created a comic series titled *Buck Rogers*. This hero figure was flying into space, in rockets, exploring outer space and creating a whole new world. These images were the seeds, planted in the minds of children who would, in our day, become astronauts.

Again, when I walked out of the theater after viewing this film, I was overjoyed to see this kind of idealism being offered to the youth of today. These are the kinds of ideas that will one day materialize into a whole new and wonderful world.

Another film that is offering the same ideals to children is the movie *How to Tame Your Dragon*.

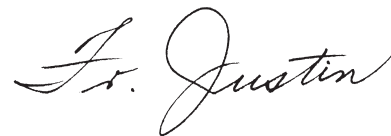

As most of you know, my teaching is about the unlimited resources of the Mind and how we can use meditation to use those resources. Teilhard de Chardin said that the only thing necessary for change is that one person have a thought, and that there be a sufficient amount of time for that thought to materialize.

My dear friends, when you and I are putting images into our minds that depict human beings as being kind, gentle, responsible, stable, loving and compassionate, we are visualizing *Homo Noeticus*. This is the ideal that Jesus gave us, the image that was in the mind of Buddha, the ideal of Krishna, and all other truly spiritual leaders. NOW, you and I can see ourselves, and all human beings on the planet, as *Homo Noeticus*. These thoughts alone can move Universal Intelligence to create that reality. NOW is the time for all of us to be born anew! Meditation is the tool to create this new reality. Use it every day!

With much love and appreciation for your presence in our lives and in our mission, Karen Garinger. Also, I received an endorsement from Fr. Richard Rohr, OFM. I am in 7th Heaven at this writing!

My life keeps getting better and better as time goes on. I continue to be passionate about sharing the tools that have helped me along the way, especially spirituality and meditation. I hope that all of you, who read this letter and who use these same tools on a daily basis, will experience the same fullness and satisfaction in your lives.

With much love and appreciation for your presence in my life,

SUCCESS STORIES

Barbara Stahura is a former student of Fr. Justin. We hope to have her here for a workshop some day: Barbara has been a professional writer since 1987. She is also a certified instructor of Journal to the Self®. After her husband, Ken Willingham, sustained a traumatic brain injury in 2003, she created and began facilitating a journaling workshop for survivors of brain injury. Those workshops were the basis for her book, *After Brain Injury: Telling Your Story* (Lash & Associates Publishing/Training, 2009), co-authored with Susan B. Schuster, M.A., CCC-SLP. It is the first journaling workbook for people with brain injury. She also facilitates workshops designed for family caregivers, based on *Journal to the Self* by Kathleen Adams.

PERFECTLY HUMAN

by
Fr. Justin

Masterpieces, one and all -
That's what humans are!
God's the artist, Love's the base!
We're all Avatar!

Part of "human" is free will,
All of us make choice.
Indeed, this gift is one in which
We can all rejoice.

When you're kind and gentle too,
You will feel good.
These are traits that help create
Man- and woman-hood.

In God's mind there is a model,
Mirrored in the Christ.
We're supposed to follow Him
Practice sacrifice!

We are being called to grow
Into God-like beings.
Spreading joy and happiness
Loving life not things!

Using words like thanks and please,
Make us valuable!
Honest compliments and smiles
Carry a clear love-label.

Sitting with a friend to be
his or her lifeline,
Shows that you're compassionate
A person that's Divine.

Skills of love are lots of fun.
Choose to be a Light
You can be an Avatar,
A spiritual socialite.
